To our Linscott Parent Employers:

Thank you for supporting local education by allowing your employee, who is a Linscott Charter School parent, to arrange a work schedule that allows him/her to participate in the education of their child. Linscott is a parent participation cooperative school that requires parents to be involved in the educational process of their student. By supporting your employee in this admirable goal, you are also making a contribution to local education and helping students receive a rich, quality education. Thank you for your service to the Santa Cruz County community.

Sincerely,

Julie Wiley  
Administrative Director/Principal
